MATHS DESIGN COMPETITION!

Could your design appear on our brand-new Maths Raffle Ticket Boxes?

We are excited to announce a **Maths Design Competition!**

We are looking for creative and imaginative mathematicians to design the artwork for our new **Maths Raffle Ticket Boxes**.

There will be THREE winning designs!

We will choose **one winning design for each year-group box:**

YEAR 1/2 – one winning design

YEAR 3/4 – one winning design

YEAR 5/6 – one winning design

This is really important: Your design needs to be created for **one specific box**. You must make it clear which year group your design is for by including the correct wording:

YEAR 1/2

YEAR 3/4

YEAR 5/6

The winning design for each group will be used on the raffle ticket box for that year group.

GET CREATIVE!

Your design must be **Maths-related**. You could include:

Numbers and number patterns

Mathematical symbols

2D and 3D shapes

-  Fractions
-  Money
-  Measurement
-  Time
-  Graphs and data
-  Calculations
-  Patterns and symmetry

Think carefully about how you can make your design **eye-catching, colourful and original!**

How to enter

1. Choose the **year-group box** you are designing for.
2. Use the **design template provided**.
3. Make sure the correct year group is **clearly visible** on your design:
YEAR 1/2, YEAR 3/4 or YEAR 5/6
4. Make your design **Maths-related**.
5. Get creative!

HAND-IN DATE

All designs must be returned to school by 30th September.

We can't wait to see your amazing mathematical designs!

☀️ **GOOD LUCK, MATHS DESIGNERS!** ☀️

Remember: Your design could be the one featured on your year group's new Maths Raffle Ticket Box!
