Science Day

Dear Parents/ Carers

I am writing to tell you about an exciting Science Day that we have planned for **Wednesday 12th March** during National Science Week. We are theming our day around chemical reactions as this is something our children continue to ask for in science lessons.

Each year group will take part in a range of science activities which could include:

- Making slime and Oobleck.
- Volcano making
- Dancing raisins
- Investigating indicators
- Instant ice cream
- Bubble machines
- Coke and Mentos experiment
- Combustion experiment

We have lots of fun activities planned to get the children excited and engaged about science, including visitors/ helpers coming from Steyning Grammar School to show us some 'WOW' chemical reactions.

So that we can enjoy a really successful and varied Science Day, we would like to ask parents for a voluntary contribution of £2.00 per child towards the costs, payable via sQuid. These focus days really do bring a subject to life, and we would love to offer a wide variety of experiments and activities for the children to take part in and observe. If you have any difficulty with making this contribution, please talk to your child's teacher or Mr Andrews in confidence.

Thank you for your continued support

Miss Underdown
Science Leader
