

Diversity Statement

As a school, we aim to provide an enriched curriculum that is planned to support meaningful learning experiences for all children while promoting diversity and inclusion.

The Governors of Upper Beeding Primary School believe it is important that we reflect the diverse nature of the school community we serve, promote an inclusive school environment and provide role models for staff and young people.

We are currently collecting data on the diversity of the board, including data on age, gender and ethnicity. This will inform our recruitment and training needs and ensure a diverse range of perspectives in order to support robust decision making.

Due to our relatively small Governing Body we do not publish this data online as individual Governors could be identified and we have a legal obligation to protect their data.
